Please Note:

Items that are usually frozen are noted above, other items may also be frozen especially as we balance our supply in this difficult time if this is an issue please tell us when you place your order.

Where you specify a weight in your order, we will do our best to match it (e.g. when cutting a roast) In other items (e.g. chicken drumsticks or a whole rib-eye) the weight will depend on the number ordered.

If you are unsure how much - a rough guideline is to allow between 225g-330g per person per meal. Prices on current on 25/3/20
